DECEMBER

THE ERA OF PROFESSIONALLY MANAGED REAL ESTATE COMMUNITIES IS UPON US.

BE A PART OF IRECMS BENGALURU!

Overview

After a successful launch in Mumbai, the **International Real Estate Community Management Summit (IRECMS)** will be coming to Bengaluru as a platform to drive conversations and dialogues among real estate thought-leaders on the concept of 'professional community management.'

IRECMS Mumbai 2019 Highlights

Focus **India's Market** IRECMS Patronage

The trend of building gated communities that offer a better, more luxurious and more wholesome living experience is on the rise in India, particularly in Tier 2 and Tier 3 cities. As we rapidly move towards community living, the 'housing societies' that typically exist will not be adequate to run and manage the interests of residents effectively due to lack of bandwidth, commitment and experience. It is inevitable that a team of dedicated professionals will be needed to manage the same on behalf of occupants, in residential and/or commercial spaces. IRECMS will serve as a platform to discuss and predict these future needs of real estate that will help elevate the entire industry to the next level of operations.

ABOUT US

Founded in 2001, Narang's Bankers Training Institute (NBTI) is a pioneer training institute for bankers, which coaches them to prepare and clear the JAIIB, CAIIB (Conducted by IIBF, Mumbai) and Internal Promotions exams.

It has evolved from one man's belief in making learning interactive and interesting for bankers. Our deep experience, simple delivery and best in class content facilitates knowledge retention and delivers brilliant results – ~85% participants have cleared the exams in the first attempt.

We focus on giving aspiring bankers an opportunity to sharpen their knowledge and partner with them to achieve success and growth in their careers. Mr. Narang has been in the industry for the last 40 years and his crisp and well drafted material has gathered many accolades from the participants.

INTRACITY VEHICLES

Bajaj RE - now known as Bajaj Intracity - is a name deeply inscribed in every Indian's heart. After all, it has been a tried and trusted companion for more than 50 years. By being the world's largest manufacturer of 3 wheelers and the largest exporter of 3 wheelers in India, it has been one of the highest employment generators. Other than India, the brand enjoys a strong presence across 36 countries.

Bajaj Intracity offers an extensive product portfolio of vehicles, compatible with all fuel types - Petrol, LPG, CNG, Diesel and for all categories - small, medium and big. With such a wide range of products, Bajaj Intracity is continuously exploring new dimensions to enhance its products and make public transportation easier and affordable for each commuter. In all major cities, Bajaj Intracity's products play a major role in providing last mile connectivity and therefore are considered as the most dependable commuting option.

AN IDEA WHOSE TIME HAS COME

HIGHLY FUEL EFFICIENT

Qute has a higher fuel efficiency of 43 km/kg* – at least 65% more than the most popular small car. It has a 4-valve water cooled DTSi engine with closed loop fuel injection system. The engine is 216 cc and is light weight.

Petrol : 35 km/l* **CNG** : 43 km/kg*

*As per our testing conditions

LOW ON MAINTENANCE COST

Qute has a less complex engine than other 4-wheelers. The vehicle is Made in India and hence, parts are easily available. The maintenance cost is comparable with a 3-wheeler. It is suitable for daily commuting.

EASY TO DRIVE

Qute has the smallest turning radius of 3.5m, which makes it extremely easy to maneuver through congested lanes. Dash mounted sequential shift gears provide comfort in driving. The small size of the vehicle helps in navigating the city traffic and parking in tight spaces.

PROVIDES WEATHER PROTECTION

Qute provides protection from sun and rain. The vehicle navigates better in water-logged conditions as well. It has 12-inch alloy wheels which provide better road grip and is equipped with wipers and washing system for better visibility during harsh weather conditions.
