Top Services

ENERGY AUDIT

An Energy Audit is an in-depth check carried out on a building or equipment to assess the amount of energy being utilized & exploring opportunities for energy conservation without affecting the output.

[Read more](#)

SAFETY AUDIT

Fire Safety Audit is an integral & essential part of loss prevention strategy. The objectives of the Fire Safety Audit are to look after the safety, health & welfare of employees in the industry, to maintain the high standards of safe operation.

[Read more](#)

REMOTE ENERGY MONITORING SYSTEMS

An energy management system (EMS) is a system of computer-aided tools used by operators of electric utility grids to monitor, control, and optimize the performance of the generation or transmission system.

[Read more](#)

TRANSITION MANAGEMENT

Transition Management is one of the most important roles in any organization that performs outsourcing or off-shoring.

[Read more](#)

ONE WINDOW AMC

One Window AMC is a service involving single contract where we maintain each equipment, do spare management and even do the operations if required.

[Read more](#)

LEAKAGE STUDY

Wet walls and seeping walls are prominent in the current scenarios of both residential and commercial establishments.
